

# A Glance at Viatris in Europe

VIATRIS is a new kind of healthcare company, committed to providing access to medicines.

We are **approximately 11,000 talented and dedicated individuals** working in **38 countries across Europe** determined to improve healthcare for patients regardless of geography and circumstances.

Around one third of our employees work in one of the more than **10 manufacturing and packaging sites** across oral solid dose (OSD), injectables, active pharmaceutical ingredients (API), integrated OSD and API plus complex products.

Our European portfolio of more than **1,400 best-in-class products** includes global key brands, generics, biosimilars and over-the-counter medicines.

We produce and commercialize medicines for patients across a **broad range of major therapeutic areas**, spanning both noncommunicable and infectious diseases, such as

Cardiovascular

Infectious disease

Oncology

Immunology

CNS and anesthesia

Women's healthcare

Diabetes and metabolism

Gastroenterology

Respiratory and allergy

Dermatology

We have one of the industry's largest and most diverse **biosimilar portfolios.**

Viatris is also a **key player** across the region within **thrombosis.**

Our work in Europe also wraps around partnering with key stakeholders to **end TB (tuberculosis) and fighting antimicrobial resistance (AMR)** – both part of the European Commission and United Nation's agenda — with the launch this year of the only medicine approved explicitly for highly resistant TB.
